Our 2019 Program will continue to follow the USTA 10 and under Tennis guidelines for ages and equipment.

The rules of tennis have changed.

Effective January 1, 2012, all USTA-sanctioned tournaments and USTA Jr. Team Tennis leagues for kids 10 and under will utilize the rules and regulations of 10 and Under Tennis.

What's Different?

- Courts are smaller and easier to cover. Courts are 36 feet, 60 feet, or 78 feet in length.
- Balls bounce lower and slower, making them easier to hit.
- 3 levels of tennis balls.
- Racquets sized for small hands that are easier to grip and swing.

Benefits for Kids

- Frustration is cut way down when equipment and rules match kids' development level.
- Kids learn tennis faster and can master skills before moving on to the next level.
- They're playing real tennis and having a lot of fun at the same time.
- Kids build confidence in their game with balls they can hit and a court they can cover.
- Kids are more likely to keep playing and improve their tennis game when they're having fun.

Tennis Balls: Kids need a ball that is sized and paced to their playing abilities. A yellow tennis ball moves too fast, bounces too high and is too heavy for smaller racquets. Each age group, therefore, uses specific kids tennis balls better suited to their size and playing ability.
